

Gilbert K-9 Structure & Movement Seminar = Enhance Your Win Capability

May 26 & 27, 2007

SPONSORED BY THE LONE STAR AIREDALE TERRIER CLUB

Want to know why breed specific movement is correct and the "Generic Show Dog" movement is incorrect for your breed? Join us as Ed and Pat Gilbert present how to build on the basics. Learn about structure for form and function; how structure along with proper conditioning and handling affects movement.

This two day, **all breed** seminar will permit you to properly evaluate dogs. It makes no difference whether you show, breed, hunt, work, do obedience, agility or anything else with your dog(s). The seminar will help you be a more intelligent breeder, exhibitor, handler and judge. It has been designed for the *purebred dog fancier*, but everyone is welcome to attend. Ed's book, *K-9 Structure & Terminology* will be available for purchase.

The first day and ½ is a PowerPoint presentation which provides the basic fundamentals that will be applied during the second day when live evaluations will be conducted. Some of the topics covered include: practical K-9 anatomy and locomotion, fundamentals of evaluating dogs, gaiting, principles of judging movement, enhancing your win capability, and live evaluation of different breeds with breed specific handling and grooming tips. We will need a small number of dogs present for evaluation on Sunday. Please contact Lynn Rickman if you are interested in bringing your dog. You must be registered for the seminar in order to be considered.

Registration is limited. This seminar will fill quickly so don't delay! Join us in this interactive seminar to listen, think and be challenged! *No registration will be accepted without payment in advance; no refunds will be given. In the event you are unable to attend you may "sell" your space.*
